## ENGLAND RACING WITH GERMANY IN BUILDING SHIPS

Launches Neptune With Great Ceremony—Germany Works Secretly.

Lord Northcliffe Explains England's Dread.

HUNDREDS OF MILLIONS GO

Portsmouth, Eng., Sept. 30.—The "Neptune," which when completed will be most powerful warship afloat was launched from the government docks here today by King Edward's sister, the Duchess of Albany, in the presence of a multitude of distinguished naval officers, politicians and society people. It was in great contrast with the launching of Germany's super-dreadnaught "Hamburg" Saturday, which was with the most secrecy.

She will have a broadside of ten 12-inch guns, throwing 9,000 pounds of metal with eight more ahead and astern, throwing 7,000 pounds more. The ship is 530 feet long and of 20,250 tons displacement. It has a secondary battery of 25 4-inchers. Two new warships of the same size will be built immediately at the same dock, and four more at other places before the beginning of next year.

The British admiralty says the seven great maritime nations spent nearly six hundred million dollars on their navies annually. England the most and the United States second.

### The Meaning of It.

Chicago, Sept. 30.—Lord Northcliffe, managing owner of the London Times, in an article written for a local paper says:

The Americans are so busy with the affairs of their own gigantic continent that they have not the time to devote to the study of European politics, which are more kaleidoscopic in their changes than are those of the United States.

There is an impression in this country that some hostility exists between the peoples of Great Britain and of United Germany.

I know the Germans intimately. From childhood I have traveled extensively throughout most of the German states. I have many German family connections and I venture to say that, outside the usual body of Anglophobes one meets in every country, there is little hostility to the British on the part of the Germans. And, on the other hand, there is in England no dislike of Germany. Au contraire, our statesmen are adapting German legislation to our needs, and if imitation be the sincerest form of flattery the Germans must be well pleased with our proposed reproduction of their working men's insurance, their labor bureau and a great many other legislative improvements that, it appears to me would be just as vital to the United States as they seem to be to Great Britain.

### History of 1869 Repeated.

Why, then, if so happy a state of affairs exists between the two nations, should there be any section of people in England to suggest the possibility of war. Turn back to 1869. Was there any friction between France and Prussia? There was no hostility on either side. But any reader of Busche's Bismarck, or other standard authority on the great German empire binder, will acknowledge there was immense preparation on the part of Germany—a preparation that was kept secret as far as possible and which also, as far as possible, is being kept secret by Germany today.

As to that which is transpiring in the German shipbuilding yards, we more or less know that by 1912 Germany, in ships of the super-dreadnaught class, will be the equal of England.

If we were in your position, able to grow our own food on our own acres, it would matter little to us if we had merely an ornamental navy such as Ambrose Bierce describes this month in Everybody's Magazine—an article which every American ought to read. But how few Americans realize that our food is brought to us from Australia, Canada, much of it from this city of Chicago and your western wheat fields, from the Argentine republic—nearly all of it from over the sea.

### Japs Do Not Menace America.

Two or three days ago I was at San Francisco, where your government has spent an immense sum of money in fortifying the Golden Gate against an imaginary Japanese attack. Throughout the greater part

## Change of Venue Sought by Hiram Smedley, Whose Attorneys Serve Notice on Commonwealth Today

Judge Reed Desirous of Finishing Futrell Murder Case Today—New Indictments Returned.

A change of venue will be asked by the attorneys for Hiram Smedley. Notice has been served on Commonwealth's Attorney John G. Lovett, that they will ask for the case to be tried before the court of another circuit. The grounds for the change of venue have not been given out. It is the rumor around the court house that Smedley's attorneys will seek to have his sanity tested first, and if this should fail that the change of venue will be asked. An affidavit to the effect that Smedley is not ready to go to trial this term has been prepared.

Must Finish Futrell Case. Judge Reed intends that the Futrell case shall be finished as soon as possible, and will give the attorneys all afternoon in which to make the arguments. Should the attorneys not finish this afternoon a night session will be held in order that tomorrow morning another trial may be called. Judge Sam Crossland opened the argument for the defense while Judge R. T. Lightfoot made the first argument for the commonwealth.

One of the strongest fought points in the trial is the evidence that J. S. Futrell, the father, told his son to shoot, that he had plenty of money with which to defend him. This has been refuted by the defense. Mrs. Osburn swore she heard the remark and the defense introduced witnesses this morning to the effect that she was in the dining room at the time of the tragedy.

Futrell Trial. Much interest was centered on the trial of Louis Futrell, and that the case was hard fought is evident by the array of legal talent on both sides. Every point was stubbornly contested and the cross examinations were severe. Frequently the attorneys became engaged in squabbles that Judge Reed was obliged to break up by a heavy rap of the gavel.

The star witnesses for the prosecution were Mrs. Osburn, wife of the murdered man, and William Stanley a boarder. They swore that Louis Futrell and his father, J. S. Futrell with T. D. Petty and three other men came to the Osburn boarding house about 7 o'clock, and were drinking. They ate supper and after wards were upstairs when cursing and loud oaths were heard. Osburn went to the room and asked the men to be quiet, when it is alleged they became abusive, and the boarders were asked to leave. Osburn was escorting them down the steps, when at the bottom of the stairs they became abusive and the younger Futrell drew his pistol and fired. Mrs. Osburn said she was within a few feet of her husband when the shot was fired, without provocation Stanley said he was standing on the steps and told the same story. He admitted striking one of the men when he made a second appearance at the door. Both witnesses were cross-examined carefully.

The Defense. For the defense Louis Futrell took the stand yesterday afternoon and

## 114 YEARS WAS HER AGE

General debility caused the death of Mrs. Charity Dunlap, 114 years old at Jackson, Tenn. She was the mother of Mr. Nelson Palmer, of this city, and grandmother of Mrs. C. L. Faust, 1502 Broadway. ### AUTOISTS KILLED.

New York, Sept. 30.—Edward Baker, proprietor of a garage at Mineola, L. I., and Parker Norton, owner of a newspaper there, were killed early this morning in the wreck of an automobile, in which they were bringing back Leo Stevens' balloon to Krug's Corners from Hicksville. The party had followed the balloon and were piloted by Chauffeur William Watson, who was uninjured. Stevens and Dr. Lucas, aeronauts, were in the other machine. The aeronaut's machine arrived at Krug's hotel and waited for the other car. It did not appear and they set out to find it. They found the machine wrecked against a telephone pole on Jericho turnpike. Near it lay the bodies.

told his story. In the main his story was corroborated, but there was a confusion of the details. Futrell said he and his friends went to the boarding house and applied for lodging. He had a bottle of whisky in his pocket and he said Mrs. Osburn told them drinking was not allowed and it was surrendered. After supper they were in a room on the second floor talking, but not in a loud tone, he said, when Osburn ordered them to cease loud talking. One word led to another and they were ordered from the house. At the bottom of the steps he said a wrangle ensued over the payment of the bill by his father handing out a \$20 gold piece instead of a dollar. Then he said Osburn grew abusive and struck his father, and knocked him down. When he pleaded that his father be spared he said Osburn turned upon him, struck him under the eye and then pinned him against the wall with his hand on his throat. When Osburn reached his right hand toward his hip pocket, Futrell said he thought his life was in danger, and pulled his pistol and fired. Petty's story was along the same line.

Cross-Examination. Futrell on cross-examination said he had carried a pistol since he was about 12 years old. He denied that his father knew anything of his having the weapon, and said he placed it in his pocket almost every time he left home. During the day before the murder he said he had been drinking but denied being drunk, although the prosecution offered testimony that he was reeling when he entered the house. Futrell is 19 years old, according to his testimony, and has a limited education. He has been a model prisoner, and several weeks ago prevented an outbreak of prisoners. He is only an ordinary boy from the tobacco district, and the night of the murder was his first visit in Paducah.

Attorneys Sam Crossland, Hendrick & Corbett, Thomas N. Hazell are counsel for the defense, while County Judge R. T. Lightfoot, Commonwealth's Attorney John G. Lovett, County Attorney Albert Barkley and Oliver & Wickliffe are representing the prosecution.

## PRESIDENT TAFT VISITS SEATTLE BIG SHOW TODAY

Carries Out Program as Arranged Without Any Variations This Time.

Great Crowd Grooms Him On His Arrival.

WILL REMAIN UNTIL FRIDAY

Seattle, Wash., Sept. 30.—President Taft went to the exposition today and carried out the regular program.

Reaches the Coast. Seattle, Wash., Sept. 30.—President Taft reached the coast two weeks after his start from Boston. The crowd at the station was restrained by a roped off space through which the president and the reception committee passed. They proceeded in automobiles to the Runtler club, where a reception was given by Mrs. Ballinger, wife of the secretary of the interior.

After the reception the president was taken to the Hotel Washington, which will be the visitor's home until his departure Friday. The president retired early after greeting the Yale club, which was holding a dinner at the hotel. Along the brilliantly lighted streets through which the president passed, there was cheering at every step.

The president met an old Cincinnati sweetheart today at North Yakima. She is Mrs. Betty Hodges, formerly Miss Evans. Taft was best man at her wedding. In introducing the president at Yakima Governor Hay declared it was through Senator Jones that the Pacific coast had recognition in the national cabinet, and for vice president in 1912 he "placed in nomination Wesley Jones."

"In the nomination of Senator Jones," responded the president, "I don't see why he should not name him for the presidency, for out here you only want the best. If you nominate him for the presidency, I will be glad to go before the country and testify to my knowledge of his worth and ability, as I am doing here."

In the throng were many veterans and their wives. Of them Taft said: "It is pleasant to note that this far western country, away from the battlefields where the issue of the nation's life was contested, we find heroes of that war building a new country, adding to the strength, expansion and prosperity of the country they saved."

"In front of me I see a monument to one who gave up his life in the Philippines, in order to aid the people who by the providence of God were put under our guardianship. Only those who have been in the Philippines have proper pride in what our boys did there, called upon not only to meet a foe, but afterward our position, where we had to exercise self-restraint, guardianship and independence of action that only men in the American army are capable of."

### New York Fire

## ORVILLE WRIGHT MAKES HIGH RECORD FLIGHT

Berlin, Sept. 30.—In the presence of the empress, Prince Oscar and other nobility today, Orville Wright made a record flight, attaining the height of 893 feet, and beating his own previous record over 200 feet.

Before his flight Orville was received in audience by the Empress Augusta Victoria, who asked him to explain the mechanism. Wright showed them and was greatly confused at the attentions. After the flight, which was one of the proudest ever made, he was complimented highly by the empress. Thousands saw him while aloft, but the start and finish were private especially for the nobility.

## MOTHERLESS AND PENNILESS WITH FATHER GONE MAD

Champion Children Are Cared For by Kind Hearted Neighbor.

Will be Sent Back to Relatives at Cincinnati.

JOHN CHAMPION RATIONAL.

Penniless, without food or shelter and poorly clad, the three children of John Champion were brought to Paducah this morning from Stiles by Mrs. Robert Sears, wife of a farmer residing near Stiles. An appeal to the county authorities for assistance will be acted on this afternoon and arrangements made to send them to Cincinnati, O., where they have relatives.

The father, who was brought here almost a raving maniac Tuesday afternoon after burning his fine houseboat and all his belongings and attempting to cremate himself and his two small children, is improving in his cell at the county jail. Although his speech is not fluent, he seems to talk rationally. When informed by a reporter this morning that his children were in the city, Champion looked somewhat surprised but said nothing. His mind is not perfectly clear, but from his quiet conduct and sensible talk officials at the jail are of the opinion that his mental balance is returning.

John Champion, Jr., 23 years old, the eldest child, said he had not been in such narrow straits before if he could get to Cincinnati he could get on his feet again and send his brother and sister to school. He is a buggy trimmer by trade and intelligent. Tessie, aged 11 years, his sister, and Sherman, aged 15 years, his brother, were with him and aroused the sympathy of the county authorities. Their only possessions were their miserable clothing given them by the charitable residents at Stiles. Mrs. Sears said she provided the little girl with clothing and helped dress Sherman in order to bring them to Paducah. The trip was made in a wagon. They had remained at the Sears farm since the night their father became frantic.

To a reporter John Champion said he supposed his father would be of no help to them and he wanted to go to Cincinnati. He explained that he had lived there five years with his parents, following the trade of buggy trimmer. On account of his health, they decided to come south and floated down the Ohio to Paducah in a fine houseboat, leaving there three months ago. They turned up the Tennessee anchoring near Stiles, where they hunted for mussel shells.

His mother died a short time ago and her death affected the mind of his father. Setting fire to the houseboat Champion tried to cremate himself and the little boy and girl, who were rescued. Powder and cartridges on the boat exploded, wounding Champion on the head, hand and foot. On being brought to Paducah Champion was placed in jail and Dr. O. R. Kidd dressed the injuries. Dr. L. E. Young, county physician, will make a further examination this afternoon and Champion may be ordered to the insane asylum for treatment.

Mr. and Mrs. Sears gave shelter to the children. John said his grandmother, Mrs. Nancy Robinson, lived in the vicinity of Cincinnati and he could find her by seeing his brother-in-law, George Denning, a railroad machinist, living in Cincinnati. He said he would get a job and place the two children in school until he could get on his feet once more.

Provisions no doubt will be made to send the three to Cincinnati this afternoon. The houseboat burned and nothing was saved. Champion may regain his mind after a treatment. Today he complained of his wounds hurting him, but has given Jailer James Eaker no trouble.

The judges for the races next week will be C. L. VanMeter, Ed. P. Farley and M. M. Tucker. All of these gentlemen are experienced horsemen and visiting horsemen can be assured of a fair treatment at their hands.

## PRESIDENT TAFT VISITS SEATTLE BIG SHOW TODAY

Carries Out Program as Arranged Without Any Variations This Time.

Great Crowd Grets Him On His Arrival.

WILL REMAIN UNTIL FRIDAY

Seattle, Wash., Sept. 30.—President Taft went to the exposition today and carried out the regular program.

### Reaches the Coast.

Seattle, Wash., Sept. 30.—President Taft reached the coast, two weeks after his start from Boston. The crowd at the station was restrained by a roped off space through which the president and the reception committee passed. They proceeded in automobiles to the Ruiner club, where a reception was given by Mrs. Hallinger, wife of the secretary of the interior.

After the reception the president was taken to the Hotel Washington, which will be the visitor's home until his departure Friday. The president retired early after greeting the Yale club, which was holding a dinner at the hotel. Along the brilliantly lighted streets through which the president passed, there was cheering at every step.

The president met an old Cincinnati sweetheart today at North Yakima. She is Mrs. Betty Hodges, formerly Miss Evans. Taft was best man at her wedding. In introducing the president at Yakima Governor Hay declared it was through Senator Jones that the Pacific coast had recognition in the national cabinet, and for vice president in 1912 he "placed in nomination Wesley Jones."

"In the nomination of Senator Jones," responded the president, "I don't see why he should not name him for the presidency, for here you only want the best. If you nominate him for the presidency, I will be glad to go before the country and testify to my knowledge of his worth and ability, as I am doing here."

In the throng were many veterans and their wives. Of them Taft said: "It is pleasant to note that this far west country, away from the battlefields where the issue of the nation's life was contested, we find heroes of that war building a new country, adding to the strength, expansion and prosperity of the country they saved."

"In front of me I see a monument to one who gave up his life in the Philippines, in order to aid the people who by the providence of God were put under our guardianship."

"Only those who have been in the Philippines have proper pride in what our boys did there, called upon not only to meet a foe, but afterward our position, where we had to exercise self-restraint, guardianship and independence of action that only men in the American army are capable of."

## MOTHERLESS AND PENNILESS WITH FATHER GONE MAD

Champion Children Are Cared For by Kind Hearted Neighbor.

Will be Sent Back to Relatives at Cincinnati.

JOHN CHAMPION RATIONAL.

Penniless, without food or shelter and poorly clad, the three children of John Champion were brought to Paducah this morning from Stiles by Mrs. Robert Sears, wife of a farmer residing near Stiles. An appeal to the county authorities for assistance will be acted on this afternoon and arrangements made to send them to Cincinnati, O., where they have relatives.

The father, who was brought here almost a raving maniac Tuesday afternoon after burning his fine houseboat and all his belongings and attempting to cremate himself and his two small children, is improving in his cell at the county jail. Although his speech is not fluent, he seems to talk rationally. When informed by a reporter this morning that his children were in the city, Champion looked somewhat surprised but said nothing. His mind is not perfectly clear, but from his quiet conduct and sensible talk officials at the jail are of the opinion that his mental balance is returning.

John Champion, Jr., 23 years old, the eldest child, said he had not been in such narrow straits before if he could get to Cincinnati he could get on his feet again and send his brother and sister to school. He is a buggy trimmer by trade and intelligent. Tessa, aged 11 years, his sister, and Sherman, aged 15 years, his brother, were with him and aroused the sympathy of the county authorities. Their only possessions were their miserable clothing given them by the charitable residents at Stiles. Mrs. Sears said she provided the little girl with clothing and helped dress Sherman in order to bring them to Paducah. The trip was made in a wagon. They had remained at the Sears farm since the night their father became frantic.

To a reporter John Champion said he supposed his father would be of no help to them and he wanted to go to Cincinnati. He explained that he had lived there five years with his parents, following the trade of buggy trimmer. On account of his health, they decided to come south and floated down the Ohio to Paducah in a fine houseboat, leaving there three months ago. They turned up the Tennessee anchoring near Stiles, where they hunted for mussel shells.

His mother died a short time ago and her death affected the mind of his father. Setting fire to the houseboat Champion tried to cremate himself and the little boy and girl, who were rescued. Powder and cartridges on the boat exploded, wounding Champion on the head, hand and foot. On being brought to Paducah Champion was placed in jail and Dr. O. R. Kidd dressed the injuries. Dr. L. E. Young, county physician, will make a further examination this afternoon and Champion may be ordered to the insane asylum for treatment.

Mrs. and Mrs. Sears gave shelter to the children. John said his grandmother, Mrs. Nancy Robinson, lived in the vicinity of Cincinnati and he could find her by seeing his brother-in-law, George Denning, a railroad machinist, living in Cincinnati. He said he would get a job and place the two children in school until he could get on his feet once more.

Provisions no doubt will be made to send the three to Cincinnati this afternoon. The houseboat burned and nothing was saved. Champion may regain his mind after a treatment. Today he complained of his wounds hurting him, but has given Jailer James Eaker no trouble.

The judges for the races next week will be C. L. VanMeter, Ed. P. Farley and M. M. Tucker. All of these gentlemen are experienced horsemen and visiting horsemen can be assured of a fair treatment at their hands.

### The Weather

The forecast for Paducah and vicinity is: Fair tonight and Friday; not much change in temperature. The lowest temperature for the day was 58; the highest, 76.

Boston, Sept. 30.—Detroit, by winning both games of a double-header from Boston, the first 5 to 0 and the second 8 to 3, while Philadelphia was breaking even with Chicago, now has a lead of three and a half games for the pennant. Detroit has but to win two remaining games here to make sure of the title for this season.

The visitors looked as if they were very capable of doing this, as two of Boston's most effective pitchers were driven from the box, and Detroit, outside of one inning in the first game, used but one pitcher, Killian. His masterful work was the brilliant feature of the two games. Scores:

## SUFFERING ENDED.

W. J. Gilbert Sells the Remedy That Cured Stomach Trouble of 14 Years.

And best of all W. J. Gilbert guarantees it to cure you or money back. Read this: "I have been a great sufferer for 14 years, everything I ate gave me heartburns. I have never been able to get anything that would give me any relief until a friend of mine insisted on my taking Mi-o-na. I took a 50 cent box and I believe I am entirely well." F. M. Bryant, Newman, Ga., June 5th.

Mi-o-na is not a nostrum; it is the prescription of a celebrated physician who is a specialist in stomach diseases.

One clever woman calls Mi-o-na the Sunshine Prescription because it changed her from a miserable, nervous dyspeptic into a bright, healthy, happy woman in a few weeks.

These little Mi-o-na tablets are surely wonder workers. They absolutely cure indigestion whether acute or chronic.

They stop belching, gas in stomach, and heaviness, in a few minutes. Distress after eating vanishes as if by magic when one or two little Mi-o-na tablets are swallowed.

Only 50 cents a box at leading druggists everywhere, and in Paducah by W. J. Gilbert. Test sample free from Booth's Mi-o-na, Buffalo, N. Y.

## OHIO RIVER

IMPROVEMENT ASSOCIATION AT CINCINNATI.

City Plans Elaborate Entertainment For Visitors On That Occasion.

Cincinnati, Ohio, Sept. 30. (Special.)—That the fifteenth annual convention of the Ohio Valley Improvement association, to be held in Cincinnati, October 14 and 15, will be one of the most important waterways conventions ever held is acknowledged by all who are familiar with existing conditions at Washington and in the county at large. It will also from present indications be the largest convention ever held by this association. Reports to this effect and lists of delegates have already been received from a large majority of the over three score river towns between Pittsburgh and Cairo, and in addition many of the towns and cities not directly on the river are realizing that notwithstanding that fact there will be a direct benefit to them throughout the nine-foot stage and all the year round navigation of the Ohio. The general invitation, published a short time ago, to all mayors and commercial organizations in the six states in the association to appoint delegates was not confined by any means to "river towns," nor was the number of delegates limited.

Governor Harmon will welcome the convention to Ohio, and Governor Willson, of Kentucky, will welcome the delegates when they cross the river. A number of distinguished men in different walks of life will be on the program now nearing completion. The committee on reception and entertainment is also busy. Delegates will find their time between sessions fully occupied, and the ladies of their families will find both during and between sessions that Cincinnati still has claim to the title of Paris of America.

One real combination business and pleasure trip has already been arranged. It will be a steamboat ride down the Ohio to inspect the dam now nearing completion at Fern bank, thirteen miles below Cincinnati, and which soon will create a 9-foot stage for that distance and an equal distance up the river. The business part of the trip will consist in an inspection of the dam and possibly a business session on the "down" or "up" trip. The program for the pleasure part of the trip has not been announced. The committee simply says that nothing which the Ohio valley states produce or which can be brought into them will be omitted in adding to the gaiety of the occasion.

### An Automobile Yarn.

"When I was on the Glidden tour," says a local bug—they all begin their stories that way nowadays, you know—says the Cleveland Leader—"we struck a small town in Kansas. I needed a shave and I beat it to the village's only barber shop. I wore khaki, puttees and goggles; also, I was pretty ruddy. It gave the barber an opening for the conversation. "Are you a real 'chiffonier'?" he asked, facetiously.

"No," says I, "but I'm a pretty good dresser when I'm at home."

"He isn't next to it yet."

"Do the Barkers own their piano?" "One octave of it."—Life.

Jefferson Street From Eleventh to Seventeenth Closed.

The board of public works begins work of closing Jefferson street tonight, and one side will be treated at a time. We therefore request the public to kindly not drive on the closed portion of the street or attempt to cross it anywhere between Eleventh street and Fountain avenue, as it materially affects the work. It will only require three days to complete the work when the street will be opened.

# S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S.S.S. cures skin diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S.S.S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

## CHAIRMEN

### OF EIGHT COUNTIES WILL MEET IN PADUCAH.

Every Hoghead of 1908 Crop Sold and Everything Ready for Crop of 1909.

Chairmen of the eight counties of the western Kentucky district of the Planters' Protective association will meet in Paducah Saturday to elect a salesman for this point. Mr. A. N. Veal, is the incumbent and his efficient services for several terms have proven very satisfactory and he will probably be re-elected.

The western district has two salesmen, one being located in Paducah and one at Mayfield. Mr. L. E. Stevenson, of Mayfield, was elected last week as salesman for Mayfield.

Every hoghead of the 1908 crop was disposed of last week by Salesman Veal and at present there is no tobacco on hand. He is awaiting the arrival of samples and then the pricing will begin, followed by the receipt of the pledged 1909 crop later on. Twelve hogheads, eleven leaf and one lugs, were on hand and sold here. Leaf brought a price of from \$7 to \$12 a hundred pounds, while the hogheads of lugs sold for \$6.50 a hundred. The association has been managed successfully the past year and a good record attained.

### THE OASIS BURNS OUT.

Conger's Saloon on Cumberland Mountains No More.

McMinnville, Tenn., Sept. 30.—It is reported here that W. P. Conger's mountain saloon, about eighteen miles from McMinnville, out on top of the Cumberland mountains, burned at 3 o'clock yesterday morning, with its entire contents, between six and twelve barrels of liquor, with a lot of case goods. Nothing is known here at present as to the accident or incendiary. The grand jury here last week found several indictments against Conger for selling liquor in violation of the law.

Quite a quantity of liquor from the saloon has found its way into McMinnville since the place has been in operation.

This resort was known as the "Oasis," and was claimed to be the only place in the state where whisky could be legally sold.

### Jeffries Training in Paris.

Paris, Sept. 30.—James J. Jeffries at present is training in a suburb of Paris. He is taking long walks, and jumping. Nothing definite has yet been arranged regarding a fight with Jack Johnson for the heavyweight championship of the world. Hugh McIntosh offered \$50,000 for a fight in Paris, and later raised his offer to \$55,000.

## News of Theatres

If you would rather laugh than cry and if you enjoy fun and frolic more than lugubriousness, you will be at the Kentucky theater when Florence Gear appears in "Fluffy Ruffles." Here is an entertainment that moves swiftly from one laugh to the next one, with a liberal admixture of catchy songs and sprightly dances. As in "Marrying Mary" last season, Miss Gear is this season achieving a distinct hit by her highly individualized personal charm, her unusual sense of humor for a woman, her gloriously sweet soprano voice, as well as by some of the most fetching gowns and hats ever displayed upon the stage.

Most all theater-goers are familiar with the story and characters of "Way Down East," which will be the attraction at The Kentucky October 14, for it has been presented in nearly every town and city in the United States and Canada during the past ten years. In presenting the play again the present season Managers Brady and Grismer are only complying with a universal demand, and as heretofore they have provided an excellent cast and elaborate production. "Age does not wither or custom stale" its "infinite variety," and no further proof of its undying powers to please is needed than the fact that the local managers everywhere still regard it among their gilt-edge book-ings.

Tonight the Gertrude Ewing company offers a special event in Dumars well known play, "Camille," in the fourth act of which Miss Ewing will wear an imported Parisian dress of gown of last season's fame valued at 1,500 franc with a 60 per cent duty. This special creation was selected for the first showing in Kansas City last year, where it created quite a sensation. Last night the "Slaves of the Orient" was a splendid comedy offering and with the good cast, costuming and scenery there were cheers and applause to the echo. The enjoyable vaudeville features between the acts makes "something doing" all the time. "The Nutty Family" will be the matinee bill Saturday afternoon at 2:30, and the most entertaining matinee of the season.

### COUPLE FROM SUNNY ITALY FIND LAWS ARE VEXATIOUS.

Seeking to defeat the Illinois marriage law, prohibiting cousins marrying, Louis Goulloni and Lena Goulloni found that a Kentucky marriage license was not good in Illinois. Accordingly, the couple returned to Paducah last night from their home in Berlin, and were married by County Judge R. T. Lightfoot. This morning Mr. and Mrs. Goulloni returned home. Both are natives of Italy and came to Paducah Tuesday and procured the marriage license. Thinking it was legal in Illinois, the couple returned to Illinois, but the marriage could not be performed there, and so the next train was caught for Paducah. They arrived last night and lost few minutes in having the knot tied.

## OFFICIAL GUESTS ARE BANQUETED

### A BRILLIANT ASSEMBLAGE AT HOTEL ASTOR IN NEW YORK.

Tribute to Hudson By Vice-President Sherman—Declared That Hudson Pointed Way to North Pole.

### HE DISCOVERED HUDSON BAY

New York, Sept. 30.—Vice-President Sherman, Governor Hughes, personal representatives of the emperors of Germany and Japan, diplomatic representatives of 25 nations and a special delegation of 28, banqueting at the Hotel Astor as the official guests of the Hudson-Fulton celebration commission. There were also present the officers of eight navies, Senator Root, members of the legislature and officers of the city of New York.

Vice President Sherman said: "The two events celebrated on such a grand and unparalleled scale are a type of the master of the factors of human progress."

"Hudson opened the gates to the continent for the republic which leads all the nations in the upward march to the loftiest heights of civilization, while Fulton devised the means of transportation of the limitless commerce."

"Let us not err in measuring the importance now of the Hudson. Greater are the Mississippi, Missouri, Columbia and in their wild way the Colorado and Rio Grande, which, in recent days, have begun to pour their treasures into the lap of the republic."

"The quest of a northern passage brought Hudson hither, and led him to perish on the northern bay which bears his name. He did not find the way to the orient, but by his discovery in the north more commerce has been created, wealth developed, splendor exhibited beyond his most golden dreams, while civilization received profit beyond all he desired from the short route between Europe and the Indies."

"The north star governed the whole career of Hudson. His farthest advance was an index toward the pole, and the planting of our flag there by an American, it matters not be it one or two, marks the final goal. Old glory floats at the extreme north, because Hudson gave this river to the white men."

"To the pledges of friendship and peace which our foreign guests extend by their presence, we for nearly a hundred million well wishers, return thanks, while we proclaim the assurance of our most earnest desire for peace to all mankind, the brotherhood of all nations and with justice everywhere, supreme."

The speeches by German Admiral Von Koester, and British Admiral Seymour both breathed peace. Von Koester said: "Your fleet recently accomplished a brilliant record unattained by any other. The German navy from the emperor to the youngest officer watched that cruise with the keenest interest. We express the sincerest congratulations on this proof of efficiency. It has proven that a mighty fleet does not object to peace, but it is a guarantee of it."

So sensitive are some of the sleepers that if two were mounted on the roofs of high buildings on opposite sides of a busy street they would show that the buildings bend slightly toward one another when traffic is heaviest.

## AFTER THE HUNT.

I rest in the blazing firelight; When the long day's chase is o'er, While the dripping fingers of the rain Tap at my bolted door. My pillows of wild bird feathers Invite me to calm repose But I sit and dream in the fire's bright gleam While a picture comes and goes.

I hear the challenge of the quail Ring loud thro' the yellow leaves, Where the wheatfield's hands are waving A promise of golden sheaves, Where the sumac bush has lighted Her torch, from the west's dull gleam.

Where twilight grey shrouds the dying day That has passed like a happy dream.

I hear the call of the wild goose, From his home in the northern reeds Where the icebergs race in the moon-light With the billow's foaming steeds, Where the Arctic silence lingers O'er the snowy wastes agleam, Where Aurora's light burns thro' endless night O'er the torrent's frozen stream.

In the depths of distant forests I list to the heron's cry, Where the Southern Cross burns brilliant In a starlit tropic sky. Soft winds bring message of summer, Of lilies the brooklet sings, While woodbirds rest in the sheltered nest With little ones' feather their wings.

I hear the moan of the tempest O'er a heaving, troubled sea, Where seagulls scream round lonely rocks On a shipwrecked vessel's lee. The petrel flaps her weary wing O'er the sailor's final sleep Where the stormwind calls thro' the ocean's halls, To waken the slumberer deep.

But the freight fancies sink in darkness, The morning wind to a whisper dies, The rain has ceased and in fitful beauty The moonbeams lighten the western skies, The birds sing sweet from the perfumed shadows Their matin's carols to greet the day, From the rippling sea the shadows flee, As the sunlight chases the night away.

## HEATING PLANT

TESTED AND SATISFACTORY AT LONE OAK SCHOOL.

County Trustees Purchased Six and It Pleased—Will Install More of Them.

The new heating plant at the consolidated school was tested last night by the local trustees of the school and found in good order. The furnace is arranged so that fresh air is taken from the exterior, heated, and then sent over the school room. A change of air is secured every few minutes by a special opening. Six of the heating plants were purchased by the county school board, and will be given a trial. If they prove satisfactory more of the schools will be equipped with the furnaces.

Trustee F. E. Gholson and J. M. Rouse, contractor for the High school building, have located the building. It will be 50 feet in the rear of the front property line and will be an equal distance from each side line of the lot.

Honesty may be the best policy, but lots of people think that their ability to dodge the police is just as good.

This is a sad world to those who go hunting for pleasure.

## BRYAN WILL NOT MEET BAILEY

TEXAN IS READY TO MEET COM-MONER ANY TIME.

In Telegram Mr. Bailey Says Effort to Arrange Joint Debate Has Resulted in Refusal.

### WOULD DO DEMOCRACY HARM

Atlanta, Ga., Sept. 30.—More fully setting forth his position with regard to the proposed joint debate on the question of free raw material between himself and William Jennings Bryan at the Auditorium here, Senator Joseph W. Bailey, of Texas, sent the following telegram to the Atlanta Young Men's Democratic league:

"I authorized my friends at El Paso to arrange a joint discussion between Mr. Bryan and myself, and they undertook to do so, but he objected on the ground that it would militate against Democratic success in the next congressional election. In view of that statement by him, I am not willing to put myself in the position of urging him to do what he thinks would be against the interest of party, but if he should change his mind about the matter and consent to the arrangement you propose, it would please me very much to debate the question of free raw material with him at Atlanta whenever it may suit his convenience."

A Gainesville, Tex., special to the Constitution states that Senator Bailey forwarded a similar telegram direct to Mr. Bryan at Lincoln.

Mr. Bryan has not replied to the invitation.

## FOR CITY

G. R. DAVIS WILL LOOK AFTER CONSTRUCTION.

Appointed Supervisor of City Hall and Fire Station Work by Council.

G. R. Davis was elected superintendent of the construction of the city hall addition and of the new Central fire station last night at a joint meeting of the public improvement and finance committee. His salary was based on one and one-half per cent of the contract price. It was necessary to select a building superintendent because the failing health of Architect A. L. Lassiter compelled him to go to a health resort. Mr. Davis is an experienced builder, and his duty will be to see that the contractor erects the building according to plans and specifications.

## AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. Emma Imse, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

## HE IS COMING AND EXPECTS TO ARRIVE SATURDAY MORNING

Fisher the Quaker Health Teacher, Will Spend a Limited Time Here, Not to Promise, But to Prove Something.

Some very agreeable, pleasant and important news is herewith imparted to our readers. Fisher is coming. Fisher, the man who proves what he says; Fisher, the man who makes hundreds of friends daily owing to his sincerity and honesty. Fisher, whom you have heard and read much about but who has never before visited Paducah. He is expected to arrive here early next Saturday morning and promptly at 9 o'clock on that morning he will make his headquarters at McPherson's drug store, Fourth street and Broadway.

Now, what will he do and prove? First of all, should this article be seen by any person unfortunate enough to be afflicted by a tapeworm. Fisher will give the Quaker remedy absolutely free, which will expel the worm complete with head in a few hours without dieting, danger or any ill after-effects. This free proposition is for three days only.

Next, if your children are pale, puny and restless; if they grit their

teeth, pick their nose, have bad breath, etc., they may be afflicted with pinworms or stomach worms and the Quaker remedy will remove them or cost of same will be cheerfully refunded.

Next, if you suffer from rheumatism, catarrh, kidney, liver, stomach or blood troubles, call on Fisher at McPherson's drug store and he will strive to prove what Quaker Extract and Oil of Balm will do for you. Remember, it costs nothing to talk to Fisher, the Quaker Health Teacher, and should you decide to try his remedies the price of same will be refunded if they fail to benefit. This is how Fisher proves what he says.

Don't forget, any person afflicted with a tapeworm, by calling at McPherson's can get Quaker Extract, which will remove it, absolutely free. Fisher will be at McPherson's drug store corner Fourth street and Broadway daily from 9 a. m. to 5 p. m.

### Belgian Horse Fairs.

Horse fairs, held almost continuously, have helped to make Belgium the greatest horse-breeding country of its size in the world. The fairs are largely attended by foreign buyers, especially Germans, who purchase 25,000 horses a year at these exhibitions. It is estimated that there are now 300,000 horses in Belgium, a country not quite as large as the

state of Maryland, which has just about half that number of horses.

**Daily Thought.**  
The man who is generous today will find it easier to be generous tomorrow. An act repeated often enough becomes a habit, and the fruit of habit is character.—Selected.

It certainly is disgraceful the way the those night riders carry on over in the Blue Grass.

In reading of the man who was brought here crazy from Stiles, please observe the spelling of the word.

We do hope Jim Jeffries will be careful while he is in Paris. Somehow, that never struck us as a good place to train for a prize fight.

Since Peary and Cook got back and the Fulton-Hudson celebration has opened a number of gawson murders have been relegated to the inside pages.

Why not rope in that strip of disputed ground, where Taft and Diaz will meet, and make them fight it out, Marquis of Queensbury rules? Give President Taft another taste of bear meat and let Diaz eat a couple of alligators and the presidents of the sister republics ought to put up a pretty little scrap.

**PADUCAH, THE MARKET PLACE.**  
Paducah, the market place for the Purchase, makes its formal announcement today through the columns of The Sun, the advertising medium of the Purchase, for the fall season. No city of the size anywhere, is exhibiting a more up-to-date assortment of fall goods than Paducah. Broadway's windows bear out everything that is proclaimed in our fall fashion edition today. Those who demand merit and fashion in their wearing apparel, should read the advertising pages of The Evening Sun and patronize the home stores. Prices, quality, assortment and style are unexcelled, as the growing trade of Paducah's retail stores among out-of-town purchasers has proven a factor in building up trade and will continue. Every word their advertisement speaks is true.

"Paducah is the best market you will find anywhere near you. This is easily proven by a comparison of the stocks of Paducah merchants and the prices. The big fall stocks are now on display, showing complete assortments in every line. Paducah merchants undersell Memphis, St. Louis, Evansville or Louisville or nearby cities, as is shown every day by the increasing number of people who come here to buy. Everybody is treated courteously and fair. All prominent Paducah merchants are members of the Retail Merchants' association, which has an arrangement by which if you buy a certain amount of goods your round trip railroad or steamboat fare is refunded."

**LINE UP WITH TAFT.**  
Mr. Taft puts the conservation question up to the country. He says that congress, reflecting the sentiment of the country for fifty years,

has enacted laws, now standing on the statute books, designed to attract people and transportation lines to new lands, by offering them free access to the natural wealth of the region. Now it is desirable to save the coal, mineral and forest lands and water power for the benefit of the people. President Roosevelt temporarily and arbitrarily withheld from settlement several millions of acres, while he aroused the people to interest in the question. That was right; but it is not right for the executive department to disobey the injunctions of congress persistently even to protect the people. Congress should enact laws in harmony with the prevailing sentiment and repeal those, which contravene public policy.

If the people desire the public domain protected, they must take steps through their representatives to enact laws to that purpose, instead of weakly depending on the executive department to save them by tyrannous methods. Isn't that a fair proposition to a strong, independent people?

It is scarcely becoming a sovereign people to content themselves with whining at the law's delay, the lack of justice and lax execution. We have our representatives in congress, and they represent us, too—with all their graft and incompetence and sloth. That is the worst of it.

How many sovereign citizens in this or any other congressional district have exercised their sovereignty to inquire personally of their representatives how they stand on the question of conservation of natural resources, protection to labor, development of internal waterways, development of the merchant marine, reform in postal laws and economy of all mail transportation, regulation of public service corporations, and extension of the civil service? Only those, whose personal interests are directly affected by specific legislation, we suspect.

If the candidate is a Democrat or a Republican, as the case may be, and slick enough to get the nomination, that is all the average sovereign citizen requires. We could take that congress and make it so completely a unit, that one couldn't tell a Democrat from a Republican, if every citizen would exercise his prerogative to dictate to his congressman what sort of legislation we wish, instead of blindly following party organs and cheering vulgar anecdotes about the opposing party at political rallies and barbecues.

"We have laws enough," seems to be a satisfactory sort of explanation to the average man with a lazy brain. "All we need now is their enforcement." That is good, sound reasoning on the hypothesis that "laws is laws"; but there are good laws and bad laws; sufficient laws and inadequate laws; efficient laws and antiquated laws.

The president, a citizen elevated to the chief magistracy of the country, pledged to a certain policy of administration, and in a position to see the requirements and test the laws, surrounded by able counsel, is touring the states, explaining to the people what he has done and why he has done it, and showing them wherein the laws are lacking to enable him to do what he thinks the people wish done. What he has done or has not done is important only as it demonstrates the need for improvements in the public service; but what he wishes to do and what he requires to enable him to do it, should catch and hold the closest attention of the people.

Covert sneers and flank attacks of anti-administration papers, more devoted to a desire to discredit the government than to promote the welfare of the United States, should not distract attention. In all things it is well to keep faced forward. Mr. Taft has not apologized for anything he has done. If he has entered into an explanation at all, it is simply because he feels a responsibility to the citizenship of the country, which opposition congressmen and newspapers, apparently do not feel.

There is only one preliminary question for the patriot to ask himself. That is whether he thinks Mr. Taft is conscientiously doing what he does for the best interest of his country. If he thinks Mr. Taft is not, and that Mr. Taft is a traitor, then he is justified in regarding with suspicion everything the administration undertakes; but, be he Democrat or Republican, if a man is a patriot, and thinks the administration is acting to the best of his knowledge and belief for the welfare of the United States and the people, he must necessarily uphold the hands of the administration and regard its policy from a friendly, rather than an unfriendly point of view, and wherein the administration unquestionably is right, that men should see to it, that insofar as his influence goes, his congressman will co-operate with the president in working for the good of the country. Heaven alone knows how long the millennium has been held back by unreasonable minorities.

**JEROME SCORES GAYNOR.**  
Tammany Candidate for Mayor An Abhorrent Product.

New York, Sept. 30.—District Attorney Jerome, who is making an independent fight for re-election, attacked Justice Gaynor, candidate for mayor, who is endorsed by the independent Democratic organization and is expressed to be the Tammany nominee. He described Gaynor as "That most abhorrent product and political judge, whose so-called personal liberty decisions have served as a protection to lawbreakers. I cannot stomach Gaynor and cannot see selfish, desperate men force him upon the party."

## BAPTIST REVIVAL

WILL COMMENCE AT THE FIRST CHURCH OCTOBER 24.

Bible School, Which Proved Success Before, Will Be Continued This Year.

The regular monthly business meeting of the First Baptist church was held last evening and much business was transacted. It was decided to hold a big revival, beginning the fourth Sunday in October. It was also decided to continue the Bible school that was such a success last winter and several noted men will be invited to address it. The church clerk was instructed to prepare annual statistics of the church that will be presented at the meeting of the Western Baptist association that meets at Barlow October 13. Men will be placed at work at once to clear the wreck and it is believed the machinery can be saved besides considerable timber. The hull may be placed in commission. ## We Startled a Good Many People with Our Heater Offer. Did You Read It?

We put some statements about heating stoves down in black and white that stove users NEVER HEARD BEFORE. We want to repeat them!

Remember, we are backed by one of the grandest stove manufacturing concerns in the world—yes, backed by a concern that makes and sells more soft coal heaters each year BY THREE TIMES, than ANY OTHER MAKER anywhere.

So there are MILLIONS OF DOLLARS behind what we have to say about heaters this year!

This heating wonder—this magic reducer of the fuel bill—this handsome steel, iron and nickel comfort-giver is the ORIGINAL patented Cole's Hot Blast from Chicago.

This remarkable heater is made by only one concern—the Cole Manufacturing Co., of Chicago. And it is sold by only ONE store here—OURS. We have the exclusive agency.

To us alone is given the right to make the most unusual guarantee EVER MADE on a heating stove.

Read it. IT WILL OPEN YOUR EYES.

It will show you that your stove money will do far more than you thought it would.

Here is our authority from the President of the Cole Manufacturing Co.—the strongest guarantee ever made on a heater:

"You are authorized to sell the Original Cole's Hot Blast Heater this year on the most rigid guarantee ever made by any stove manufacturer. Our guarantee to every customer of yours is:

"1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.

"2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with the same size fire pot.

"3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.

"4—That the stove will hold fire with soft coal from Saturday night until Monday morning.

"5—A uniform heat day and night with soft coal, hard coal or lignite.

"6—That every stove will remain absolutely air-tight as long as used.

"7—That the feed-door is and will remain smoke and dust proof.

"All we ask is that the stove shall be operated according to directions and set up with a good flue.

(Signed) COLE MANUFACTURING CO.  
(Makers of the Original Patented Hot Blast Stove.)

## Cole's Hot Blast, \$10 up

And the fine feature is that you get this guarantee on a truly low-priced stove at the same time it is one that will last a lifetime, and as long as it lasts it is guaranteed to remain a perfect heater.

Shouldn't this be your stove choice?

Handsome — durable — economical.

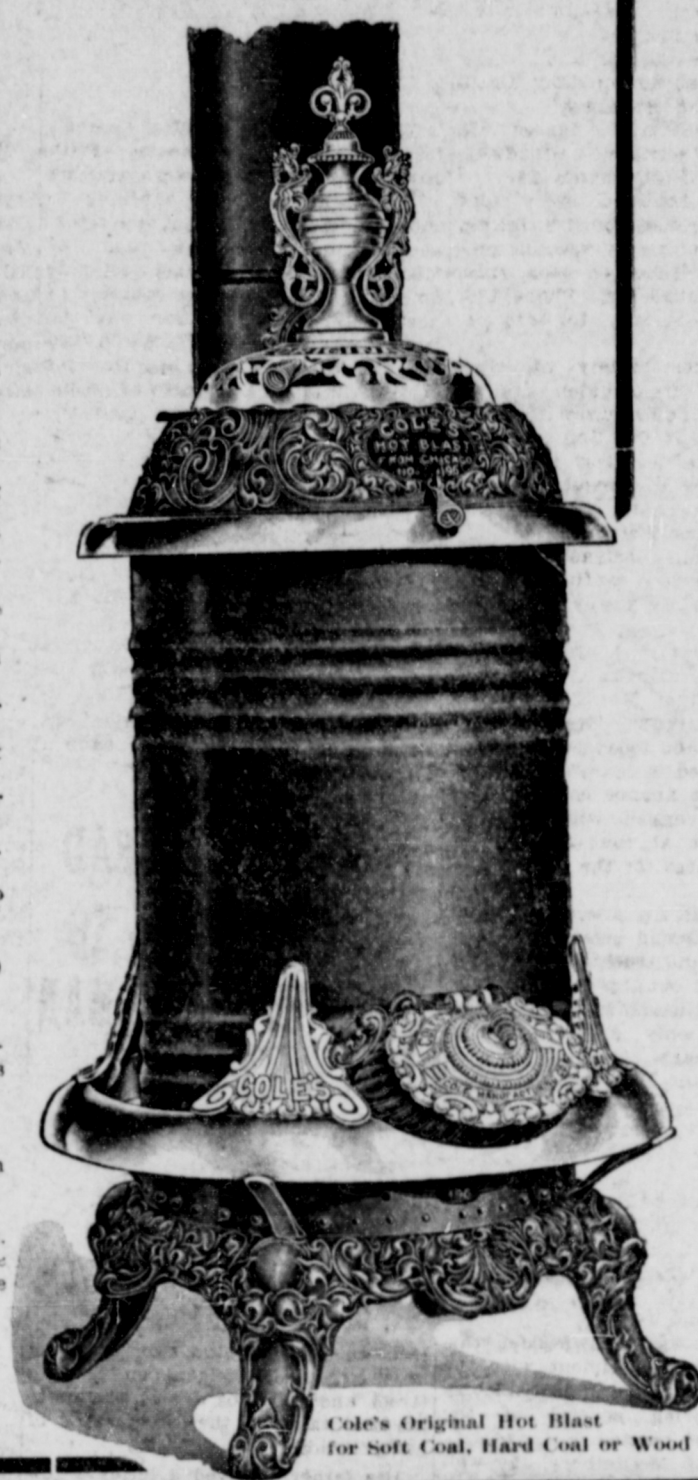

No kindling and rebuilding of the fire in the morning. Simply open the draft.

You dress in a warmed room. You eat in a warmed room.

You live in an even temperature—and even temperature is health. Uneven temperatures mean colds—or worse. The earlier you get the stove the longer your season of comfort. Look at once. Why not come in today?

## WILSON MAY RESIGN.

Secretary of Agriculture Has Broken Record of Long Tenure.

Washington, Sept. 30.—Mr. James Wilson, who has been secretary of agriculture since March 4, 1904, a longer period of service than any cabinet officer in history, is expected to step out about January 1 next. Whom the president will name in his place is not made known, even if Mr. Taft has made a selection.

Reports have been frequent hitherto that Mr. Wilson was about to go. He and the secretary of the navy, Mr. Meyer, were the only hold-overs from the Roosevelt administration. Mr. Wilson's greatest claim to retention was the popularity of his department with the farmers.

The bare suggestion of his retirement was sufficient to bring a protest from the west, but it is now understood that this portfolio will pass to other hands.

## INTERURBAN TO MEMPHIS.

E. A. Bushnell Confers With Jackson Men About It.

Jackson, Tenn., Sept. 30.—E. A. Bushnell, of Indianapolis, is in the city conferring with local capitalists concerning an interurban road from Jackson to Memphis via Brownsville. The movement is well received here, and Mr. Bushnell is much encouraged over the prospects. He says that if the other towns offer as much inducement as Jackson the road will assuredly be built.

The scheme is one that has been considered for some time by some parties in Jackson, and the proposition was ripe for the occasion. The Merchants' association discussed the proposition with Mr. Bushnell.

## Deep Water Delegates Named.

Hickman, Ky., Sept. 30.—C. L. Walker, president of the Commercial club, and chairman of the committee on general arrangements for the reception and entertainment of President Taft here on October 26, has appointed the following delegates to attend the deep waterways convention, which is to be held in New Orleans on October 31 and November 1 and 2: A. E. DeBow, J. T. Dillon, S. L. Dods, Tom Dillon, Sr., J. T. Stephens, Dr. J. O. Stubbs, R. L. Tyler, A. M. Tyler, W. C. Johnson and F. S. Moore. Their names have been put on the roster and they have received their credentials. These delegates will be entitled to all the honors and privileges that go with this convention.

Evansville, Ind., Sept. 30.—Mrs. Perlina Langford died her husband, James L. Langford, for divorce. She says they were married 40 years when her husband fell in love with his "soul-mate," a young woman, and eloped with her, and that he and the "soul-mate" are now residing together at Dyersburg, Tenn., where her husband is engaged in the lumber business.

## ENGLAND RACING WITH GERMANY

(Continued from Page One.)

of your Pacific slope the Japanese depleted as they are by a great war infinitely inferior as they are to you in population, situated on an immense station on your shores, are looked upon as a dangerous opponent.

Even if it were possible for them to cross the Pacific to attack you—a more than ridiculous assumption having in view a hundred and one contingencies, including the Anglo-Japanese alliance—what damage could they do?

Now, assuming that the Japanese are eleven hours distant, have a population one-third larger than your own, and are constructing a navy as rapidly as you, would not be wise to give some careful consideration to your position?

## Warnings Ignored in England.

I see it suggested in the American papers that there is some kind of a scare in England. I wish there were. Our public has been warned by the prime minister, by the minister of foreign affairs, by many of our leading public men, such as Mr. Frederick Harrison and Lord Roberts, by prominent journalists, including Mr. Stead, and by others, but they have not yet, as you say, begun to sit up and take notice.

Leaders on that side of politics to which I belong, including, I hope, Lord Rosebery, Mr. Balfour and Mr. Chamberlain, have also directed attention to the need for national precaution, but without avail.

We have today a superb navy. We

have in the line of battle war vessels such as the formidable or the inflexible, now in New York, which are as efficient in their sphere as our Mauretanias and Lusitanias are in theirs. We are not wasting time on aeroplanes and gas bags, but are developing submarines and wireless.

**German Secrecy Causes Worry.**  
Why then worry? Those of our people who think as I do are looking ahead.

We have the official figures of the German naval program up to 1912 which are serious enough, but we know that these figures are but as inaccurate as were the figures made public by Germany prior to the Franco-Prussian war of 1871. We know that the German press, unlike that of the United States and Great Britain, is prohibited from telling the truth about these matters. We know that at The Hague peace conference, Germany declined to discuss the limitation of armaments or the use of floating mines at sea.

These are a few of the reasons why many of our younger men think it time that Great Britain should respond effectively to the naval program of Germany.

As to the attitude of the United States, I have no doubt that it will be strictly impartial as was ours during the Spanish-American war. We do not expect assistance from any outside source.

Already our colonies have shown much greater alacrity in preparation than has the old country. Little New Zealand is taxing itself \$20 per head per man, woman and child. Australia is raising an army of 270,000 men and has offered a handsome naval contribution. Canada is discussing a navy which in no way could be antagonistic to the United States, but will enable it to protect the St. Lawrence on the one hand and on the other British Columbia, where we already have a magnificent naval station at Esquimaux.

**ECONOMY THE KEYNOTE**  
In the Management of Postoffice Coming Year.

Kansas City, Sept. 30.—Joseph Stewart, second assistant postmaster general, in a talk today before the "School for Postmasters," being conducted in connection with the convention of the postal workers, declared that the keynote of postoffice management for the coming year will be economy. He believed that with proper co-operation the running expenses could be reduced several millions.

The convention adopted a resolution declaring for a parcels post system free from local postoffices and rural free delivery routes of which they are the center.

## JONAS SMITH

DELIGHTED WITH FACT HE WON'T BE HANGED.

Slayer of His Father Is Satisfied With Verdict of Life in Prison.

The happiest man in the county jail and perhaps in the city is Jonas Smith, colored, the murderer of his father, sentenced to life imprisonment. All through the trial Smith remained unmoved and when the verdict was read he did not display an emotion. However, when he was led back to the county jail he evidenced his joy, and told Jailer James Eaker he was afraid that jury would break his neck. At the last session of court Smith received the death sentence, and when the scaffold was erected for Freeman, he was scared, but with a life sentence he was better pleased. Smith is a large negro with broad shoulders and is of great physical strength.

**Trainmen Have Close Call.**  
Jackson, Tenn., Sept. 30.—The boiler of a freight train en route from Haleyville, Ala., to Jackson, Tenn., exploded, killing the engineer, Mr. Clarence Robinson, the fireman, John W. Cartmell and Jim Crockett, the colored brakeman, all escaped by jumping, each sustaining painful though not serious injuries. The train remained on the track and was uninjured. It was a close call for the three trainmen mentioned, and the escape from death is regarded as miraculous.

## DARING ROBBERY

THIEF ENTERS ROOM AND ES-  
CAPES ON BROADWAY.

Men Seen Lurking About Premises  
Enter Room As Soon As  
It Is Vacated.

While the guests of Mrs. Sebre's  
fashionable boarding house, Fifth  
street and Broadway, were trailing  
a man, who was seen skulking in the  
yard last night about 8 o'clock,  
another one entered the room of  
Miss Minnie Bittz, on the west side  
downstairs and stole the contents of  
her purse. Then he ran out the  
front past people on the porch and  
into the full glare of an electric light  
on Broadway, where scores of people  
were passing. It is presumed the  
two entered the yard searching for  
a chance to slip in the house. Miss  
Bittz had just closed her window and  
left the room for a few minutes.  
When she returned she found her  
pocketbook rifled, the window open  
and the screen removed. The second  
man was seen to go around to the  
back of the house and the searches  
were following him. The shock to  
Miss Bittz' nerves prostrated her and  
she was confined to her bed all day  
today. It is believed the men can  
be identified and the police have a  
clue to them.

BLOW ON HIS HEAD  
PROVES FATAL TO  
UNFORTUNATE MAN

A telegram, announcing the sud-  
den death of James S. Downs, 37  
years old, at the insane asylum in  
Hopkinsville, was received this morn-  
ing by Mr. W. D. Downs, his father,  
of 1295 Trimble street. Mr. Downs  
was committed to the asylum in De-  
cember, 1907, for lunacy after a trial  
in circuit court. Six months  
prior to his mental derangement he  
received a severe blow over the head  
in a street car accident on Trimble  
street and relatives are of the opinion  
that this was the direct cause of  
his affliction.

His father received a letter a few  
days ago from the superintendent of  
the institution, stating that his con-  
dition was no better and he was  
growing weaker. He never regained  
his faculties.

Mr. Downs was born in Poseyville  
Ind., in 1872, later moving to Mt.  
Vernon, Ind., where he resided until  
16 years ago, when he located in Pa-  
ducah, establishing the stone and  
marble works of J. S. Downs & com-  
pany on Trimble street. He was suc-  
cessful in business and well known.  
He was a member of the Odd Fellows  
lodge, the Woodmen of the World  
and the Eagles. He was not affilia-  
ted with any church, but was a Chris-  
tian in heart and a good man.

He was married to Miss Alice  
Tucker when a young man, and she  
survives him. He leaves his father  
Mr. W. D. Downs, one brother, Mr.  
W. A. Downs, both of this city, and  
five sisters: Mrs. Effie Hart, Mrs.  
Sylvia Monday and Miss Jessie Downs  
all of Riverside, Cal., and Mrs. Opal  
Voss and Mrs. Mabel Clark, of Los  
Angeles, Cal.

A telegram was sent to Mrs.  
Downs, who is at present in Edgar,  
Wis., and a reply is being awaited  
before any arrangements are made  
for the funeral. The body will be  
held at Hopkinsville until her ar-  
rival. The funeral will be under the  
direction of the Odd Fellows and  
Woodmen of the World lodges.

to return to the Paducah schools in

WAS IN A  
TERRIBLE FIX

A Georgia Woman Tells How She  
Felt Like She Was Being Killed  
—Cardul Helped Her.

Pelham, Ga.—"I was in a terrible  
fix," writes Mrs. E. L. Bigham, of  
Pelham, Ga. "I was so weak I could  
hardly walk across the room. I had  
such pains in my sides and would  
swell up so I could hardly stand it. I  
was irregular and could not do my  
work. My head ached all the time,  
so, bad at times I felt like it would  
kill me. I also suffered with drawing  
pains in my legs and my back hurt  
and I was getting poorer every day,  
but Cardul got me up able to do my  
work and I feel better than I have  
for some time.

"I cannot praise Cardul strongly  
enough. I will recommend it to all  
my friends."

As a tonic, for weak women, we  
know of nothing equal to Cardul. It  
gives strength and ambition,  
brightens the eyes, clears the com-  
plexion, regulates the system and  
helps you back to a new youthfulness  
of looks and feeling.

Made from pure vegetable ingredi-  
ents, it contains no powerful, mineral  
drugs, or deleterious compounds.  
Containing no glycerin, or similar  
material, it has no mawkish, dis-  
agreeable taste, and has no possible  
bad after-effect.

Absolutely harmless, it is good for  
young and old and should be in every  
family. Try it.

## A Promise to Pay

Would you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A Fire insurance policy is such a promise. Ought you to accept it without knowing all about the Company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

## NO APOLOGIES TO MAKE FOR ACTION

GEN. GRANT SAYS PARADE WAS  
LAW AND ORDER AFFAIR.

He Wore His Uniform But Says  
There Is No Reason Nor Regula-  
tion Which Could Touch Him.

WILL DO AS HE SEES FIT

Washington, Sept. 30.—"It was  
not a temperance parade, but a demon-  
stration in favor of good govern-  
ment and law and order, and I  
should have been derelict in my duty  
if I had not, when requested, headed  
the parade as I did, and I shall con-  
tinue, until prohibited to do the  
same thing whenever I deem it  
necessary to advance the cause of  
good government."

This is the substance of a state-  
ment made by Gen. Frederick B.  
Grant today in answer to a letter  
sent by W. R. Michaelis, of Chicago,  
a member of executive board of the  
United Societies for Local Self-Gov-  
ernment to the secretary of war,  
criticizing Gen. Grant for having ap-  
peared in full uniform in a so-called  
temperance parade in that city last  
Saturday.

Gen. Grant added that there was  
no law, written or unwritten, or regu-  
lation that in any way abridged his  
right to wear his uniform on any oc-  
casion he saw fit and he assumed  
that no official action on the part of  
the war department would be taken  
in the matter.

No Protest Is Received.

Washington, Sept. 30.—Secretary  
Dickinson, of the war department,  
was spared today the embarrassment  
of taking sides in the dispute of his  
fellow citizens in Chicago as to  
whether or not Gen. Fred D. Grant  
was justified in appearing in the uni-  
form of his rank in the United States  
army in the so-called temperance  
parade in Chicago last Saturday.  
The mails failed to bring the open  
letter of protest from W. R. Michaelis,  
of the executive board of the  
United Societies for Local Self-Gov-  
ernment, and the Secretary did not  
venture into a neighbor's dispute un-  
til compelled to do so.

Officials of the war department  
could not recall an instance in  
which the right of an officer to ap-  
pear in uniform on an unofficial oc-  
casion had been called into ques-  
tion. While there was no regulation  
or even unwritten law on the subject,  
it seemed to be the opinion of some  
of the department officials that an  
officer should not wear his uniform  
for an unofficial occasion, when  
wearing it would cause criticism.

It is known here that Gen. Grant  
has decided views in regard to the  
effect of liquor in the army. In his  
annual report, just submitted to the  
department, he commented on the  
court-martials by saying:  
"A glance at the report of the  
judge advocate clearly shows to my  
mind that liquor was the cause of  
most of the troubles among the sol-  
diers."

AN UP-TO-DATE DRUGGIST

says it is surprising how many old-  
fashioned remedies are being used,  
which goes to show that it is hard to  
improve some of our grandmothers'  
old, time-tried remedies. For in-  
stance, for keeping the hair dark,  
soft and glossy, nothing equalling  
our grandmothers' "sage tea" has  
ever been discovered. Although, by  
the addition of sulphur and other in-  
gredients, this old-fashioned brew  
has been made more effective as a  
scalp tonic and color restorer. Now-  
adays when our hair comes out or  
gets faded or gray, instead of going  
to the garden or garret for herbs and  
making the "tea" ourselves, we sim-  
ply go to the nearest drug store and  
ask for a bottle of Wyeth's Sage and  
Sulphur. This preparation is sold by  
all leading druggists for 50 cents and

## AMERICANS WIN BIG BOAT RACE

CONTEST BETWEEN CREWS OF  
THE WARSHIPS.

Germans Win Honors Defeating the  
Other Foreign Crews, Taking  
Second Event.

BY CREW FROM MINNESOTA

New York, Sept. 30.—German and  
America won the rowing races of the  
crews of the warships anchored here  
The Teutons outstroked the Italians,  
British, French and Dutch, in the  
races for the visiting ships.  
The husky crew from the Minnesota de-  
feated the German, Italian and British  
tar in the international race.

As the two mile course carried the  
strugglers past many of the battle-  
ships the crews had the inspiration  
of the lusty cheering and varied lan-  
guages. All of the hands were placed  
on even terms by using the American  
12-oared cutters. The prizes were  
silver shields and purses of gold, in  
addition to what the winners picked  
up in side bets, the various fleets  
backing their countrymen heavily.

Several foreign crews for the first  
event were from the British ships  
Drake and Duke of Edinburgh; Ital-  
ian, Etruria and Etha; German, Vik-  
toria Louise; French, La Justice;  
Dutch, Utrecht.

German muscle proved supreme  
while the two Italians had a hot fight  
for second place, with the British  
French and Hollanders finishing  
fourth, fifth and sixth.

The hottest contest was between  
the five American warships, the Geor-  
gia beating the Louisiana by half a  
length, with the Connecticut, Ver-  
mont and New Hampshire close  
astern.

In the international event the  
crews entered from the Drake, Vik-  
toria Louise, Etruria, Minnesota and  
four revenue cutters. The Etruria  
pushed the Minnesota tars the first  
half, then the Viktoria Louise jack-  
dashed to the second place, pushing  
the Americans hard to the finish, and  
losing by only a scant half length.  
The Italians were third, and the re-  
venue men fourth. The Drake finished  
last.

Do the right thing if you have Na-  
sal Catarrh. Get Ely's Cream Balm  
at once. Don't touch the catarrh  
powders and snuffs, for they contain  
cocaine. Ely's Cream Balm releases  
the secretions that inflame the nasal  
passages and the throat, whereas  
medicines made with mercury merely  
dry up the secretions and leave you  
no better than you were. In a  
word, Ely's Cream Balm is a real  
remedy, not a delusion. All drug-  
gists, 50 cents, or mailed by Ely  
Brothers, 56 Warren Street, New  
York.

As to Sport.

Mobilist—Had much sport?  
Sportsman—Oh, only one hare. And  
you?

Mobilist—A rooster, three dogs, six  
fowls and two ducks!

Birds as Scouts.

During the night, July 2-3, before  
the battle of Sadowa, a division com-  
manded by the Archduke, retreating  
before the Prussian army, had bivou-  
acked near a town in Bohemia  
facing north.

At midnight the Archduke, when  
resting a peasant's cottage, was  
awakened by the arrival of a gypsy,  
who insisted on seeing him person-  
ally, having come to report the ad-  
vance of the enemy.

The archduke, who spoke Romany  
fluently, asked: "How do you know?"  
Our outposts have not reported any  
movement."

"That. Your Highness, is because  
the enemy is still some way off."  
The gypsy, pointing to the dark  
sky lighted by the moon, observed:  
"You see those birds flying over the  
woods from north to south?"

"Yes; what of them?"  
"Those birds do not fly by night  
unless disturbed, and the direction  
of their flight indicates that the  
enemy is coming this way."

The Archduke put his division un-  
der arms and reinforced the out-  
posts, which in two hours' time were  
heavily attacked.—Sir Evelyn Wood  
in London Gazette.

It saves 80% of your present coal or gas bills, and  
90% of your present kitchen worries. When  
you own a Mother's Oats Fireless Cooker, you  
simply place your oatmeal (or anything else that  
you want to prepare) on the stove, bring it to a

put the pad in position, tug the draw-string, and  
go to bed. While you're sleeping, the food will  
keep cooking itself. Nothing can boil over or  
burn or spoil. During the day you can start soup  
or joints or vegetables, place them in the Cooker,  
visit your neighbor, go to the matinee, or shop,  
without any thought of a hot, stuffy kitchen range.

Now, there is only one way that you can get a  
Mother's Oats Fireless Cooker, unless you want  
to go to a store and pay \$3.75 for it, and that is  
by being a user of Mother's Cereals, the best

## TAFT DAY HOLIDAY.

Mexico City, Sept. 29.—That Oct.  
16, the day set for the meetings of  
Presidents Diaz and Taft at El Paso,  
be declared a national holiday, to be  
known as "Diaz and Taft Day," that  
salutes be fired and whistles blown  
in every city and town in the republic  
at the moment the meeting takes  
place, and further that "Diaz and  
Corral clubs all over the republic  
send telegrams of welcome to Presi-  
dent Taft as he crosses the interna-  
tional border and messages protest-  
ing their support and loyalty to  
President Diaz at Jaurez, is the play  
of the Electoral club at Atlixco, state  
of Puebla.

Appeals have been received by the  
Reelectionista clubs in this city and  
other parts of the republic to assist  
in carrying out the program. The  
suggestion has met with approval in  
this city, and it is likely that the  
plan will be taken up by the Re-elec-  
tionista clubs as soon as possible.  
Simultaneous appeals have been sent  
to clubs all over the republic and  
concerted action will probably be  
taken in a short time.

## TO CURE DANDRUFF.

It Is Necessary that the Dandruff  
Germ Be Eradicated.

"Destroy the cause, you remove  
the effect." Kill the germ that  
causes dandruff, falling hair and  
baldness, you will have no more dan-  
druff and your hair must grow lux-  
uriantly. Herpicide not only contains  
the dandruff germ destroyer, but it  
is also a most delightful hair dress-  
ing for regular toilet use. No other  
hair preparation is on this scientific  
basis of destroying the dandruff  
germ, and none other claims to be,  
for the simple reason that it only re-  
cently that a destroyer of the germ  
has been discovered—Newbro's Herp-  
icide, the only hair preparation that  
actually kills dandruff. Sold by lead-  
ing druggists. Send 10c in stamps  
for sample to The Herpicide Co., De-

All rules heretofore adopted by the National and American Leagues will apply to the championship series as well as the detailed rules adopted by the commission since the games have been provided for.

**Rules to Govern.**  
In case it becomes necessary to play the seventh game, the city in which it is to be played will be determined by the commission, as is provided for by rule 6, and at the time designated by supplemental rule No. 46.

## SEAT SHORTAGE FELT BY SCHOOL

BOARD WILL CONSIDER QUESTION AT NEXT MEETING.

Notices Sent to Employes of Child Labor to Conform to New State Law.

TWO LITERARY SOCIETIES

A shortage of the seats for the lower grades of the public schools is becoming an alarming problem for the school officials. In every school there is a lack of seating facilities for the small children, and every available school desk has been pressed into service. At the Jefferson school Superintendent Carnagey reported a shortage of 15 seats for the first grade pupils, and he has been unable to find any of the seats at the other schools.

The McKinley school needed 10 seats; but by scouring around at the different buildings the need was supplied. It is probable at the board meeting next Tuesday night something will be done in regard to furnishing the school with an adequate seating capacity. The need of seats has not been felt in the upper grades and the crowding is accredited to the strict enforcement of the truant law. Truant Officer W. T. Byrd is rounding up the children and the increased attendance in the lower grades has taxed the seats empty.

**New School Law.**  
The new school law is strict, governing the attendance of children in the schools, and warnings have been sent out to the employers of child labor that any violation of the law will be prosecuted. According to M. C. Rankin, state commissioner, the law is being violated in the larger cities in the state, and he sent out the warnings as precautions. So far 32 children have taken the examination before Superintendent Carnagey. Of these 29 have passed while there were three failures.

**Literary Societies.**  
Two literary societies will be organized among the High school students at an early date. It is intended to encourage the work of public speaking in the High school, and for this reason two societies will be organized. Frequent intersociety debates will be held, and the most promising candidates will represent the High school in the oratorical league.

**Portland Man Speaks.**  
This morning at opening exercises Mr. James L. Conley, of Portland, Ore., addressed the High school students. Several years ago Mr. Conley resided in Paducah, and is now on a visit to relatives. His talk dealt with the advantages of a college education, and the possibilities of the west. Mr. Conley finished the law department of the University of Michigan, and has located in Portland.

differs as to what would be best.

That the increase in commerce and production of this country will compel the building of locks and dams in rivers in order to transport the produce that the farmers and mechanics turn out is almost convincing to the officers of the Ohio Valley Ship Green.

The Addie brought in a barge of hay yesterday afternoon from the Tennessee river.
